ADAM RYAN GOODSSELL JOINS LAURUS SYNTHESIS INC. BUSINESS DEVELOPMENT TEAM

Woburn MA, January 7, 2016 – Laurus Synthesis announced that Adam Ryan Goodsell has joined the company as Manager, Business Development. In making the announcement, Stuart Needleman, President of Laurus Synthesis Inc., said, “Adam possesses a strong business legacy within contract chemistry, with experience that ranges from development work on the bench to process support, sales, marketing and supply chain positions. We are very optimistic about all that Adam brings to advance our business development outreach.”

Mr. Needleman went on to explain that Mr. Goodsell will be primarily focused on sales opportunities to the Boston Biotech community and will operate from the company’s Woburn location, which houses Laurus Synthesis Inc.’s extensive process chemistry capabilities and corporate offices.

From 2004 through 2015, Mr. Goodsell was employed by Johnson Matthey Pharma Services. Over the eleven years of his association with Johnson Matthey, Mr. Goodsell achieved steady advances in that organization. From his starting role as a Chemist in Chemical Development, he went on to hold positions as Technical Support Associate and Senior Technical Specialist, Process Support and Supply Chain and most recently, he was the Strategic Sourcing Lead, Supply Chain.

Mr. Goodsell earned a Bachelor’s degree in Chemistry from Saint Anselm College and was awarded an MBA in Global Studies from Southern New Hampshire University.

About Laurus Synthesis Inc.

Laurus Synthesis Inc. offers specialized laboratory services from a new, state-of-the-art drug development facility in Woburn, Massachusetts. From this site, the company assists clients in advancing their concepts along the best path to their next milestone. Laurus Synthesis chemists and project managers provide process development, method development, impurity identification services and route selection for APIs, as well as intermediates and key starting materials. In addition, a smooth technical transition to the products and services of Laurus Labs for scale-up and commercialization will be available as required. Laurus Synthesis Inc. is a subsidiary of Laurus Labs, one of India's top ten chemistry providers. For more information, please visit www.laurussynthesis.com.

About Laurus Labs

Based in Visakhapatnam, India, Laurus Labs Private Limited (Laurus) develops and manufactures active pharmaceutical ingredients (API), with a focus on anti-retroviral (ARV) and oncology products. The company supplies its APIs to several Indian and global pharmaceutical companies. In addition to the API business, Laurus offers contract research (chemical, analytical and formulation development) and manufacturing services to generic and innovative pharmaceutical companies. Laurus has world-class infrastructure, consisting of a state-of-the-art R&D and scale-up laboratory in Hyderabad and large-scale manufacturing facilities at Visakhapatnam. These facilities have been accredited by several international regulatory agencies including the US-FDA, UK-MHRA, Australian TGA and Korean FDA. The company has revenues approaching \$250 million and currently employs 1,800+ people. For more information, please visit www.lauruslabs.com.
